DIRECTORY OVERVIEW

This directory provides information about staff employed in Montana public health departments, family planning clinics, schools, local MIAMI (Montana's Initiative for the Abatement of Mortality in Infants) projects, home health agencies and Indian health programs. Head Start health coordinators, local health officers and local sanitarians are also included along with information about staff within the Department of Health and Environmental Sciences. Some agencies are missing; some were inadvertently overlooked; others did not return the data forms provided.

It is our expectation that the directory will facilitate communication among health care providers in Montana and referrals for Montana residents from out-of-state facilities.

The directory will be updated yearly, with supplemental information provided on an occasional basis. A data sheet has been included at the end of the directory which can be copied and provided to persons joining your staff.

Additions, corrections and deletions should be directed to: **Family/Maternal and Child Health Bureau, Montana Department of Health and Environmental Sciences, Health Services Division, Cogswell Building, Helena, Montana 59620 (phone: 444-4740).**

Montana statutes require that this directory not be used as a mailing list and no permission is given for such use. Use of this list for unsolicited mass mailings, house calls or distribution is prohibited and may constitute a misdemeanor punishable by fine of up to $500 and imprisonment of up to 6 months.

This list may not be reproduced, copied, distributed or sold to any person or organization.

DIRECTOR'S OFFICE

Dennis Iverson, Director	444-2544
